

5-MMB

Multi Wire Dairy Product Slicing

FOODTOOLS
Industry Leaders in Portion Control

5-MMB

Average Speed:
Built To Order

Function:

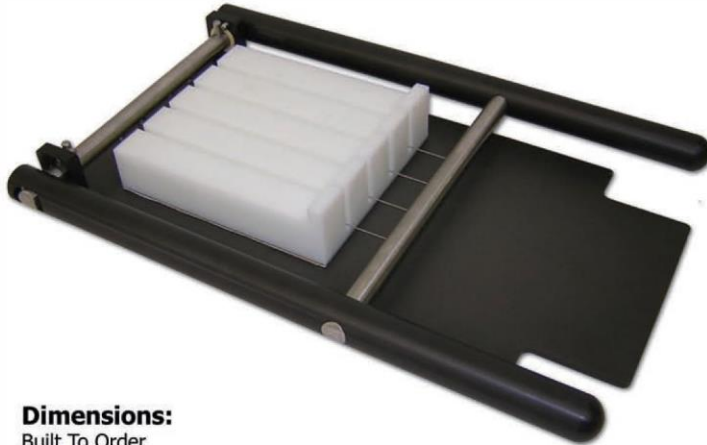

This model is a tabletop multiple wire machine operated by human power with a lever arm to slice 5 lb blocks of cheese or butter into set portions. The wire spacing is custom and built to the customer's order. A combination of using the 5-MB to break down the 40 lb product and the 5-MMB to cut it into small portions makes a very efficient operation.

Benefits

- Achieve a return on investment through labor savings and improved portion quality and consistency
- Perfectly portion products every time
- Great accessory for product reduction, to be used with FoodTools 5-MB
- Custom design allows each machine to be created for a specific project
- Small and compact tabletop design is perfect for locations with limited space
- Simple wash down meets all sanitation requirements
- Reliable and durable equipment backed by manufacturer's warranty
