

ACCUSLICE-400

Four Station Inline Round Slicing

FOODTOOLS
Industry Leaders in Portion Control

ACCUSLICE-400

Average Speed:

From 450 to 1,200 Products Per Hour

Function:

This high-production inline machine features four cutting stations with manual load and automatic offload. It is designed to slice without Divider Inserts, but the ACCUSLICE-400RF includes the option to cut with Divider Inserts. Touch screen operation allows one operator to attain cutting speeds up to 15 cakes per minute with Divider Inserts, 20 cakes per minute without Divider Inserts. The machine has quick-change product holders and can cut various cake diameters. Each cutting station has servo-driven blade heads and cutting blades and the conveyor is run by a servo drive for accurate and fast positioning.

Benefits

- Achieve a return on investment through labor savings and improved portion quality and consistency
- Perfectly portion cakes every time
- Cutting edge technology to improve consistency and efficiency in the bakery
- Reliable and durable equipment backed by manufacturer's warranty

Four Station Inline Round Slicing

Power:

Compressed Air Depends On Model
Electric Depends On Model
