# ACCUSONIC-RSU

**Average Speed:**  
50-100 Products Per Hour

**Function:**

This half sheet cutting machine is built to slice sticky, difficult to cut, and delicate products. It is capable of cutting in or out of the container. The Ultrasonic blade vibrates at 20 kHz to prevent the product from sticking to the blade, allowing each slice to have a clean quality look. The machine is best for bakeries with mid-size production of half sheet products or that have the ability to cut full sheet products into half sheets to portion on the machine.

**Benefits**

- Achieve a return on investment through labor savings and improved portion quality and consistency
- Perfectly portion cakes every time
- Small and compact design is perfect for locations with limited space
- Versatile machine slices both round and half sheet products with fast change over
- Ultrasonic technology slices sticky, warm, and delicate products with ease
- Reliable and durable equipment backed by manufacturer's warranty

## Economical Ultrasonic Portioning

**Power:**

Compressed Air 4 CFM @ 90 PSI  
Electric 208-240V, 13A

**Product Size Ranges:**

18" (46 cm) Dia Round, 18" Wide Square  
23" (58 cm) Diagonal, 3.5" (9 cm) Tall

**Portion Size Ranges**

Depends On Product

FoodTools machines are manufactured with heavy duty anodized aluminum, stainless steel, and ultra-high molecular weight plastic. The equipment is designed for complete wash down requirements in production facilities.

Specifications are subject to change and are dependent on the product portioned or additional accessories to standard equipment.
