# CS-10TWW-SR

**Average Speed:**  
100-150 Products Per Hour

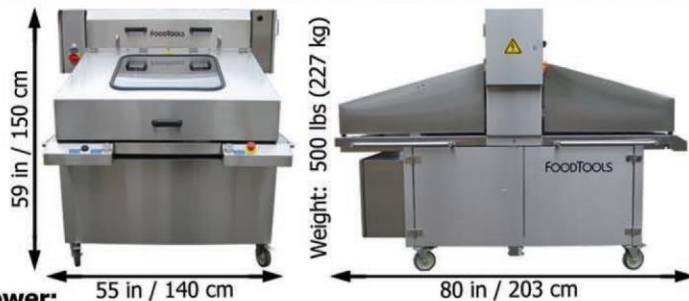

**Function:**  
This full sheet cutting model will slice a variety of frozen products in or out of the container. The machine features automatic indexing into cut positions and automatic rotation from x to y axis cuts. The servo driven platform & product holder allows cutting diamonds, triangles & parallelograms as well as rectangles & square shapes. Dual round product holders are available for cutting round products. This model is best for bakeries slicing 100-150 products per hour.

**Benefits**

- Achieve a return on investment through labor savings and improved portion quality and consistency
- Accessories are easily changed to portion products into different sizes
- Save cut patterns in the machine's computer
- Can slice products outside of the pan or inside the pan, box, or container
- Reliable and durable equipment backed by manufacturer's warranty

## Precise Servo Driven Portioning

**Power:**  
Compressed Air 9 CFM @ 90 PSI  
Electric 208V-240V, 6A

**Product Size Ranges:**  
18 in (46 cm) x 30 in (76 cm) Sheets  
Up To 4.5 in (11.5 cm) Tall

**Portion Size Ranges**  
Larger Than 0.5 in (1.3 cm)

FoodTools machines are manufactured with heavy duty anodized aluminum, stainless steel, and ultra-high molecular weight plastic. The equipment is designed for complete wash down requirements in production facilities.

Specifications are subject to change and are dependent on the product portioned or additional accessories to standard equipment.
