

CS-2000

High Speed Dual Platform Slicing

FOODTOOLS
Industry Leaders in Portion Control

CS-2000

Average Speed:
350-450 Products Per Hour

Function:

This high-production model is capable of cutting a variety of frozen round products. The machine features dual product holders and fully automatic product positioning, indexing, and Divider Insert feeding. Dual product holders eliminate lost time loading and unloading products as the machine is continuously slicing product. A single operator can double production speed by using two machines simultaneously. Portions will all be a consistent size no matter who is operating the machine. A simple switch can change from cutting with Divider Inserts to cutting without. This machine is best for bakeries producing 300 or more products per hour.

Benefits

- Achieve a return on investment through labor savings and improved portion quality and consistency
- Perfectly portion cakes every time
- Use Divider Inserts for a professional display
- Reliable and durable equipment backed by manufacturer's warranty

High Speed Dual Platform Slicing
