

**CS-4R**

## Next Generation Automatic Slicing

**FOODTOOLS**  
Industry Leaders in Portion Control

# CS-4R

**Average Speed:**

100-200 Products Per Hour

**Function:**

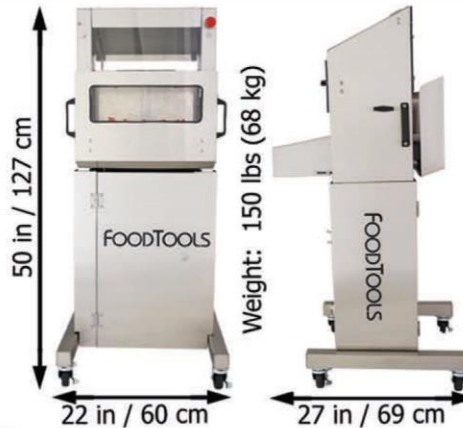

This machine is the next generation of the model CS-4AAC. It has been redesigned from the ground up to improve efficiency, cost, sanitation, and overall return on investment for the baker. It will portion a variety of frozen or chilled round products with or without Divider Inserts between each slice. User-friendly operation requires little skill to produce portions in consistent sizes at high production speeds. This model works well for bakeries producing from 100-150 cakes per hour.

**Benefits**

- Achieve a return on investment through labor savings and improved portion quality and consistency
- Perfectly portion cakes every time
- Automatic Cycle option speeds up cycle time for cakes not using Divider Inserts
- Divider Inserts can be used to improve the professional look and feel of the product
- Reliable and durable equipment backed by manufacturer's warranty

## Next Generation Automatic Slicing

**FOODTOOLS®**  
Industry Leaders in Portion Control

**Power:**
