# CS-5A3HC

## Average Speed:

Half Sheets - 1,500 Products Per Hour

## Function:

This model features 3 cutting stations with blade sets to cut the x and y axis slices along with a diagonal slice in a high speed production setting. The machine can be fitted to cut a wide variety of sheet products in their containers or boxes. This model is best suited for bakeries producing 1,000 or more products per hour and cutting square or rectangle sheets into square, rectangle, or diagonal slices.

## Benefits

- Achieve a return on investment through labor savings and improved portion quality and consistency
- Perfectly portion cakes every time
- Inline system for high volume, high production facilities
- Three cutting stations to increase speed
- Custom accessories to fit the customer's pans, boxes, or trays for each product
- Accessories can be changed for different products or specifications
- Reliable and durable equipment backed by manufacturer's warranty

## High Speed Multiple Blade Slicing

## Product Size Ranges:

12 in (30 cm) x 16 in (40.6 cm) Sheets

## Portion Size Ranges

Determined By Product

FoodTools machines are manufactured with heavy duty anodized aluminum, stainless steel, and ultra-high molecular weight plastic. The equipment is designed for complete wash down requirements in production facilities.

Specifications are subject to change and are dependent on the product portioned or additional accessories to standard equipment.
