

# CS-1ABC & CS-4ABC

## Economical Bar & Loaf Slicing

**FOODTOOLS**  
Industry Leaders in Portion Control

# CS-1ABC & CS-4ABC

## Average Speed:

CS-1ABC - Up To 2 Logs Per Minute  
 CS-4ABC - Up To 6 Logs Per Minute

## Function:

These machines are designed for cutting products such as pound cake, dough, ice cream, and more into bars or slices. Both machines can cut and insert Divider Inserts between each slice. The CS-1ABC is a fully manual machine and is indexed and operated by hand. The CS-4ABC is a semiautomatic machine and will index and return the platform to the operator automatically. Both machines are economical solutions for bar, log, loaf, and biscotti slicing.

## Benefits

- Achieve a return on investment through labor savings and improved portion quality and consistency
- Perfectly portion products every time
- Small and compact design is perfect for locations with limited space
- Use FoodTools Divider Inserts to separate each slice during the cutting process
- Reliable and durable equipment backed by manufacturer's warranty
