

IMB Baking

A G L O B A L C O N C E P T

UTILIZATION

- Patented dough divider made to answer most demands of modern baking. Allows division in equal weight dough pieces.
- Multidivision : 12 or 24 parts in the same bowl without additional accessories
- Total dough capacity : mini : 7 Lbs 15 oz - maxi : 34 Lbs 6 oz
- Dough pieces range : mini : 45 oz 3/4 - maxi : 5"1/4
- High weight accuracy due to the round bowl evenly spread the dough
- User friendly electronic control pannel
- Quick cycle due to complete automatism
- Automatic unlocking at end of cycle
- Non polluting machine : no flour projection in working environment
- Special knife milling for straight cutting without any dough tearing
- Easy inside maintenance due to 4 side removable panels
- Pin mounted blocks allowing easier cleaning

CONSTRUCTION

- Stainless steel frame
- Heavy duty equipment due to aluminium made body and lid
- Easily cleanable stainless steel knives
- Large lid handle
- Lid and side pannels made of food grade thermoformed material
- Manual lid unlocking during power outage
- Automatic cycle stop in case of panel removal or manual unlocking

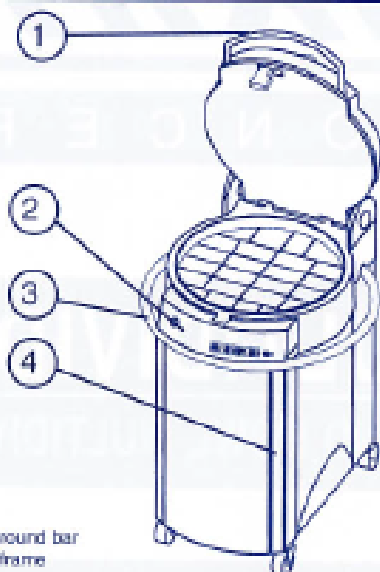

MULTIDIVIDER

ROUND BOWL MULTIDIVIDER

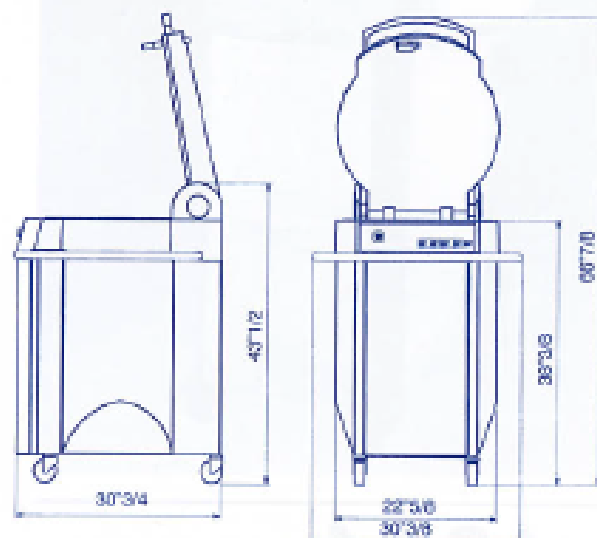

D 1224

BASIC FEATURES

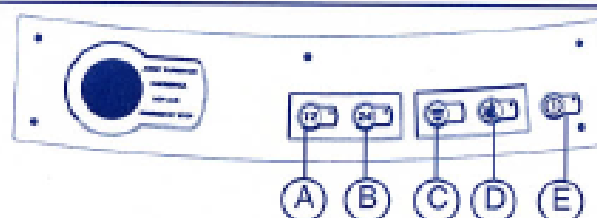

OVERALL DIMENSIONS - WEIGHT

Net weight : 551 Lbs
Crated : 617 Lbs

OPERATION

Warranty: one year parts 90 days labor
TMB BAKING : the US subsidiary of ELECTROLUX BAKING SNC reserves the right to modify or improve its manufactures without prior notification. Dimensions, pictures and weights are given as a guide. Trademarks, patents and designs registered in France and abroad.

WORKING CAPACITY

Model	Capacity
D 1224	From 7 Lbs 15 oz to 34 Lbs 6 oz

CHARACTERISTICS

MODEL D 1224	Electricity supply
	208/220v / 3Ph / 60Hz Installed power : 1.1 kW 7A

SECURITY AND HYGIENE

A. SAFETY

- NFU 65052 agri-foodstuffs equipment
- EN 60204 - 1 safety of machines

B. HEALTH

- NFU 60010 of construction rule to insure hygiene utilization
