

**X5**

All In One Oven/Proofer  
5 Pans Capacity  
Touch Screen Programmable Control

## DESCRIPTION

The all new NU-VU X5 has exclusive patented technology that allows you to proof, bake and steam in the same cavity. Save time and labor by not needing to continually return to the unit and move product from the proofer cavity to the oven cavity.

An added steam function allows you to do all types of products including artisan style breads.

The X5 has advanced touch screen controls that allows multi languages along with Wi-Fi capabilities to track your usage.

The sleek new look and cool-to-the touch door allows you to use the unit in front of the customers to visually upsell your fresh product and increase sales.
